

Help your child progress from wobbly first steps to confident walkers with improved posture, balance and co-ordination.

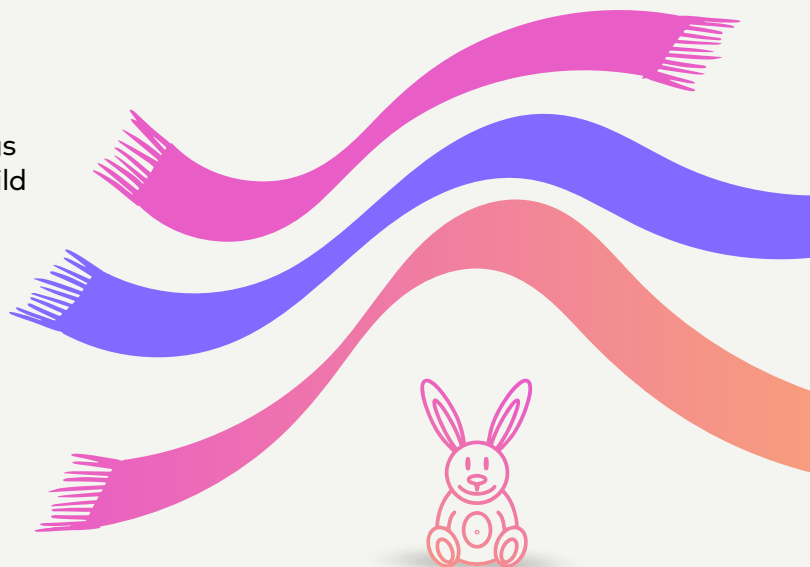

# FOLLOW THE RAINBOW

## PURPOSE OF GAME:

Develop balance and co-ordination

## HOW TO PLAY:

1. Adult takes three brightly coloured scarves and stands in front of the child.
2. Walking backwards the adult waves the flags in gentle movements and encourages the child to follow the rainbow around the room.
3. The adult encourages the child by saying, **Where will the rainbow end? Can we find the end of the rainbow to see what is there?**
4. The child follows the rainbow around the room using their scooter to move forward.
5. The adult waves the scarves in a big arch movement and lands them on the floor – the end of the rainbow.
6. At the end of the rainbow is a treat, or child's favourite toy waiting for them.
